HOSPITALITY

“The cause of lightning,” Alice said very decidedly, for she felt quite certain about this, “is the thunder-no, no!” she hastily corrected herself. “I meant the other way.”

Lewis Carroll, Through the Looking Glass

Selecting the right architect can be a little like plunging into a looking glass world of bewildering values and intense confusion.

It often seems that the only choice is an untenable one between design with high impact on the one hand and investment value on the other.

From its founding in 1974, Godwin Associates, P.A. has proven that distinctive design results and sound business practices are not mutually exclusive, that one without the other is, in fact, as meaningless as Alice’s dreamworld logic.

With a roster of clients in diverse regions of the country, the firm seeks every opportunity to demonstrate its practice of integrating profile creative energies and tangible practical applications for a **Remarkable Return on Design Investment.**
